Here some proprieties and directionality for 2023-2024.....

EOSC Partnership has a Monitoring Framework ◊ KPIs
<https://eosc.eu/sites/default/files/2022-05/Monitoring%20Framework.pdf>

EOSC priorities 2023 in HE

Build on the science cluster approach to ensure the uptake of EOSC by RIs and research communities

Ensuring and improving the quality of scientific software and code (Community based approaches)

How to better planning, track and assess scientific knowledge production

Next generation services for operational and sustainable EOSC Core Infrastructure

Support a stable EOSC Architecture and Interoperability Framework

Trusted environments for sensitive data management in EOSC

EOSC priorities 2024 in HE

Support to the Missions: FAIR and open data sharing for adaptation to climate change

Supporting the EOSC Partnership in further consolidating the coordination and sustainability of the EOSC ecosystem

Enabling a network of EOSC federated and trustworthy repositories and enhancing the framework of generic and discipline specific services for data and other research digital objects

Harmonization of practices for long-term access and preservation within EOSC and fostering data quality aspects

Innovative and customizable services for EOSC Exchange

Thank you
