NI4OS-Europe
# National Initiatives for Open Science in Europe

Coming together to map the national landscape analysis on EOSC between 5 relevant projects, 11th October 2019

Biljana Kosanovic

University of Belgrade

❑ To be a core contributor to the EOSC service portfolio, commit to EOSC governance and ensure inclusiveness on the European level.

Methodology

Map the existing landscape at the national level on OSC:

❑ initiatives

❑ policies, and

❑ topics:
  ❑ infrastructures
  ❑ services
  ❑ FAIR data implementation
  ❑ data privacy
  ❑ procurement practices
  ❑ research assessments

EOSC.secretariat WG for Landscaping – work in progress

Sub-tasks

List of all sub-tasks (some are already completed):

❑ creating stakeholder groups √

❑ creating comprehensive lists of institutions for stakeholder groups in all partner-countries √ **(> 350 units)**

❑ designing, creating a survey, reviewing, GDPR-ing √

❑ invitation letter √ (partners will have to translate, and expand)

❑ collecting responses (will start on October, 21st)

❑ will be open for 4 weeks

❑ drafting a report

The final report due in December, 2019

Survey

Based on:
- Several already existing surveys: EC-NREN, EUA, RCC, RDA, FAIRsFAIR
- EOSC Pillar draft version (compare with the final version)
- Internal project needs

Facts:
- common set of questions for all groups (profile & EOSC expectations)
- the shortest survey is for Funders, the longest survey is for OS facilitators
- maximum 30 minutes to fill it out
- supplied with links to web-pages explaining (potentially) less known terms
- all questions are on the same page (it can be printed)

Next steps – plan for the next 6 months

❑ Initial mapping ORDM certification standards and instruments and categorisation

❑ Refinement of categorization of services

❑ Decision about the very first services to be onboarded (2 thematic, 2 generic, 2 repositories)

❑ Setting up of preproduction platform, including helpdesk

❑ Early dissemination and training campaign
