## **EOSC IMPACTS**

Harmonised procedures for research data services delivery across countries.

Coordination with other initiatives to achieve harmonisation for an inclusive EOSC.

Full understanding of the state of national initiatives and compute and data services, supporting consolidation.

Increased FAIR data uptake at national levels and across scientific communities and borders.

Launch of new non-commercial transnational services in the EOSC Portal.

Active stakeholder community of EOSC supporters in each country.

New viable business models for the sustainable provision of transnational services.
