# The demo story's team

Marwa BELHAJ SALEM is a scientist compiling a dataset for her team. The team is working on Somatic Variant Calling. During compilation, she enriches a catalogue item with semantic concepts from ontologies.

Baptiste TOULEMONDE is responsible for the quality assurance in the team. He requires a minimum FAIRness for the datasets being used for research in the team.

Jose DOMINGUEZ is a scientist in the team working with the data. He makes use of the semantic annotations of the dataset to get context information from ontologies.
